

The main image shows an elderly man with glasses and a cap sitting in a wheelchair. He is smiling and looking at a smartphone. A young woman in a yellow jacket stands behind him, smiling and holding the wheelchair's handle. They are outdoors on a paved area with buildings in the background.

DESIGNED FOR CARE,
BUILT FOR DEPENDABILITY

THE ESSENTIAL LIFT FOR YOUR COMMUNITY

From aged care to childcare and community centres, the new KONE Essentials™ DX – Community lift has been engineered specifically for ease of use and reliability.

WHY KONE?

Our optimised, end-to-end design solution provides everything you need to get your next community project moving.

Affordable without compromising on quality. Our solutions are value-engineered to match the needs of your next project.

Health and wellbeing focused. Our products can come with specially developed health and wellbeing options to keep your community healthy and moving

Your community's local lift experts. With teams spread across Australia and New Zealand, we can handle everything from installation to maintenance and beyond.

Robust and stylish materials. Need something built to easily withstand public use and look good doing it? We've got you covered

Future proof. The new KONE DX Class Elevator takes our market-leading eco-efficient elevators and adds connectivity to make them smarter and more desirable than ever before.

Trusted and proven methods. Our installation teams are experts at ensuring your project runs quickly and efficiently.

Support that speaks your language. Our locally based Customer Care Centre is available 24 hours a day to handle any issues that may arise

Focused on sustainability. KONE technology not only means that we are focused on reducing our impact on the planet, but providing solutions for your building that can reduce your energy usage by up to 35%

24/7 Connected Services can now better predict, maintain and take action before breakage. For you it means improved safety, full transparency and ease of mind, because if something were to happen, we'd already know.

YOUR COMMUNITY AGED CARE | CLINIC | RETIREMENT

Aged Care/Clinic/Retirement Living

Caring for older and less mobile users in your community means we need to provide reliable, smooth and comfortable journeys. Our lifts:

- Provide clear announcements and signals
- Have easy to use buttons
- Are able to accommodate wheelchairs and stretchers
- Offer specific features, including emergency override and buffer rails

YOUR COMMUNITY CHILDCARE

Childcare

Creating a safe environment built with reliable and durable materials is key for childcare facilities. Our lifts are designed to be up to the challenge of busy childcare facilities and we offer materials that keep the elevator looking great and running smoothly.

- A range of care sizes available allowing prams to move seamlessly between floors
- Door safety to stop little fingers getting trapped
- Quick door opening times so you can grab the discard shoe
- Option to add card reader that is easily accessible to make getting into secure areas easy and stress free
- Ability to cater to all children's needs and abilities (wheelchair compliant)

KONE wants everyone to be able to get to where they're going safely which is why KONE Essentials™ DX lifts provide a selection of accessibility car sizes and components which meet rigorous local and national standards, so no one is left behind.*

- Australian Standard 1735.1:2016
- Building Code of Australia as applicable to lifts in an Accessible Building

* This may change, please check with your Sales Consultant

YOUR COMMUNITY SPORTS/LEISURE & COMMUNITY CLUBS

Sports/Leisure

Hard wearing and durable materials are designed to withstand frequent users from indoors to outdoors. With large car sizes, you'll be able to move people quickly throughout the facility and our through-car options mean you have.

- Hard wearing finishes to allow for transport of sports equipment without worrying about the longevity of your lift
- Large car options to hold the whole sports team
- Long lasting durable doors

Community Clubs

Community clubs are places we go to connect so we've designed these elevators to easily blend with the decor of your building. The proven quality of KONE lifts means that you can trust your building users will always get to their destination feeling refreshed!

- A variety of quality finishes so your lift can blend seamlessly into your decor
- Our intuitive and easy to read elevator signalisation means it's simple to use, for all visitors and guests
- Fast and seamlessly transitions from the outside world to your club meaning customers can arrive quickly and relaxed

DX CLASS ELEVATORS

DX stands for Digital eXperience, because it redefines the elevator journey with built-in connectivity for improved people flow and a completely new and inspiring user experience. In an increasingly digitalised world, everything is connected, and elevators are no exception.

Get more value out of every square metre with built-in connectivity

All KONE Essentials™ DX lifts can help you get more value out of every square metre of your building. New services enabled by the KONE digital platform and KONE Partner Ecosystem, as well as application programming interfaces (APIs), make everyday life even easier and more convenient for everyone.

This can include things like integrating elevator status data with your building management system for easier monitoring and troubleshooting or allowing people to conveniently make elevator calls using a smartphone or other mobile device.

Differentiate with a redefined user experience

Redefine the elevator user experience, bring your vision to life, and inspire users with our new car interior designs, functional and durable materials, direct and indirect lighting, infotainment features, and user-friendly signalisation.

Plan for success with KONE as your partner

Make the right decisions first time and plan your elevator down to the very last detail with our next-generation planning and design tools. Take advantage of our expert support and sustainable materials and technologies to help you achieve green building certifications and ensure compliance with safety codes and standards.

Future-proof your building with built-in connectivity

The new KONE DX Class Elevator takes our market-leading eco-efficient elevators and adds connectivity to make them smarter and more desirable than ever before.

- Connected people flow means your elevator solution never stands still and your building gets better with every update.
- To bring you peace of mind in the digital world, cybersecurity and privacy are designed into our digital services and connections. Monitoring our digital environments around the clock helps us take proper care of them for you now and in the future.

Add innovative services that improve convenience and comfort

- Take advantage of digital solutions continuously developed by KONE to improve people flow like KONE Residential Flow, to make everyday life easier for residents and KONE 24/7 Connected Services for peace of mind throughout the elevator life cycle.
- With KONE APIs you also have the freedom to develop your own smart building solutions, allowing you to further customise the elevator experience to meet the needs of your building and its users.
- You can also benefit from solutions and services developed by the growing number of partners of the KONE Partner Ecosystem, which develops solutions that can be integrated with KONE DX Class elevators.
