

KONE ReFresh Lite

As an elevator is often the first impression visitors get of your building, upgrading the elevator's interior is an investment in your building's future. Traditional interior upgrades can be costly and require considerable downtime. Partnering with 3M, KONE's ReFresh Lite package can modernise the interior of your elevator quickly and cost-effectively. Lightweight, yet durable in construction and easy to clean, this product will cover minor scratches and marks in your existing elevator finishes and protect them from further damage. With hundreds of finishes to choose from, there is a new look available for your elevator.

Providing an immediate uplift in aesthetics, KONE ReFresh Lite will improve the look, feel and value of your building.
