

HOW TO BE SAFE ON ELEVATORS AND ESCALATORS

ELEVATORS: THE DO'S

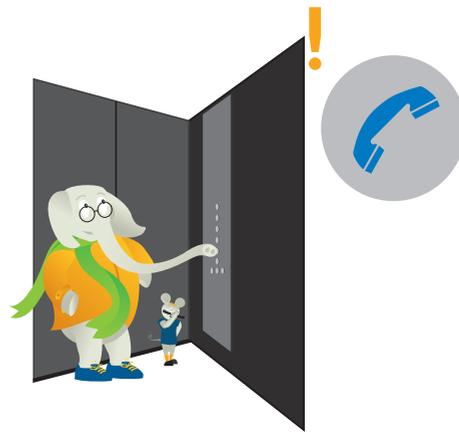

✓ If the elevator is full, wait for the next ride.

✓ When riding the elevator, stand in the back of the car facing forward.

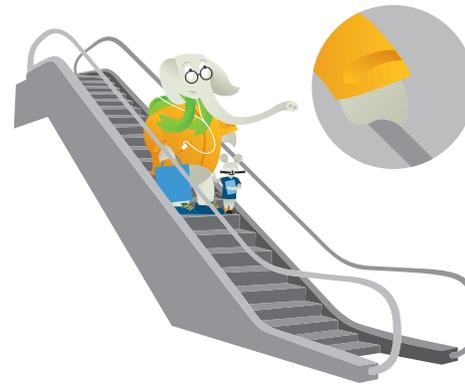

✓ Watch your step when entering or exiting the elevator, as it may not be level with the ground.

✓ If the elevator gets stuck, push the alarm/call button and wait for help.

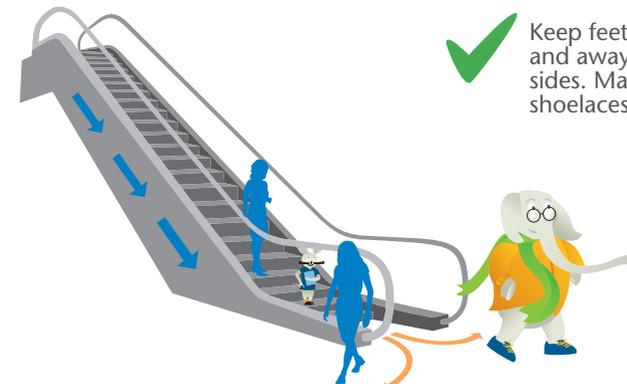

ESCALATORS: THE DO'S

✓ Face forward and hold the handrail.

✓ Keep feet firmly on the step and away from the escalator's sides. Make sure that your shoelaces are tied.

✓ At the end of the ride, step off swiftly from the escalator and make room for passengers behind you. Keep away from entry and exit areas.

HOW TO BE SAFE ON ELEVATORS AND ESCALATORS

ELEVATORS: THE DON'Ts

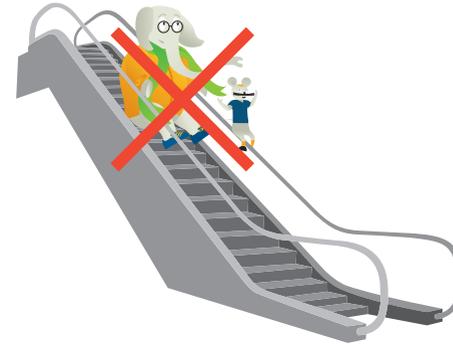

ESCALATORS: THE DON'Ts

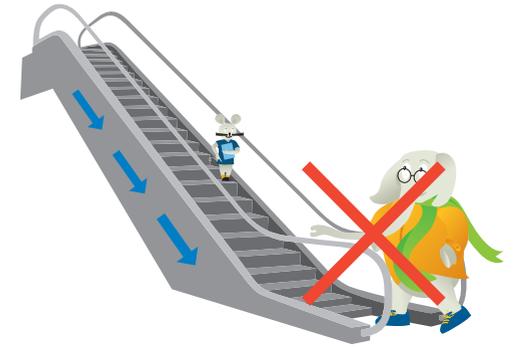

X Do not use elevators in case of fire or other emergency.

X Do not play in or around the elevator.

X Do not sit on the escalator step or the handrail, or lean over the railing. Do not slide on the handrail.

X Do not enter or exit the escalator in the wrong direction.

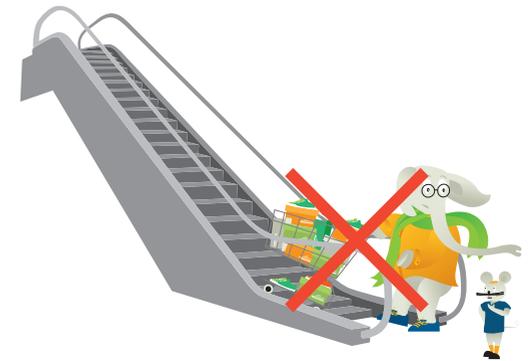

X Do not place anything including your hands between or on the elevator doors, and do not lean on the doors.

X Do not attempt to force the elevator doors open.

X Do not play or run on the escalator.

X Never take wheeled objects like bicycles or shopping carts on the escalator.
